RETAIL POS SYSTEMS

We offer Retail POS Systems that are suitable for small businesses or even multi-store chain operations. We combine customized Retail POS Software, and retail Point of Sale equipment to provide a complete POS Solution for your business. Or, if you have the expertise to complete the project yourself, we can provide you with the Retail POS peripherals and Retail POS Software so you can install the system on your existing computer.

Having a POS System that is right for your business model is critical to getting your business operating at optimal efficiency.

The checkout has evolved, and so will your business.

Transform your transactions with a modern, simple, and secure way to accept credit cards with PayAnywhere. With a free 10" tablet, stand with built-in card reader, simple pricing, and live support, it's the only payments platform powerful enough to take your business to the next level.

Built for your countertop.

PayAnywhere is much more than just a way to get paid. From our free equipment placement program and seamless checkout experience to faster funding and detailed real-time analytics, PayAnywhere will give your business the tools it needs for real success.

Free equipment

Accept credit cards with a free 10" tablet, sleek stand with built-in card reader, our industry-leading app, and cash drawer and printer connectivity.

Simple pricing

Accept Visa, MasterCard, American Express, Discover and PayPal at just 1.69% per swipe and \$12.95 per month with no setup costs.

Talk to us

We're more than just an email address. Contact us day or night for live customer and technical support by phone, email, and chat.

Get paid fast

Swipe today, funds tomorrow. Next day funding means you get paid within one business day of processed sales.

Be versatile

Email or print receipts, add a cash drawer, create inventories and add discounts, tax and tips. Allow multiple users to accept payments on the go with secure, encrypted transactions.

Dig deeper

Detailed in-app and online reporting with PayAnywhere Inside tells you what, where, and when your customers are purchasing.

Versatile
Merchant Solutions

Honest, affordable, reliable
payment processing solutions.

BE READY TO ACCEPT
APPLE PAY.

As more and more customers are going wallet-free, you will need to have the latest payment technology available.

EQUIPMENT OPTIONS

THAT ALLOW YOU TO ACCEPT CONTACTLESS PAYMENTS.

1. Vx520 DC NFC/EMV

IDEAL FOR

New merchants that do not have existing NFC-enabled equipment.

2. PIN Pad Vx805 NFC/EMV

Works with Vx510 DC • Vx520 DC NFC/EMV • Vx520 EMV • Vx570 EMV

IDEAL FOR

Merchants that have terminals but are not NFC-enabled. The Vx805 is an add-on that can connect to any of the terminals listed above.

So what is Apple Pay and how does it work?

Apple Pay uses a Near Field Communication (NFC) antenna in its mobile devices to bring contactless payment technology to the masses. Here's how it works:

- Customers register their credit card(s) through Passbook.
- At the time of payment, customer holds their iPhone 6, iPhone 6 Plus, or Apple Watch to your NFC-compatible terminal
- The two devices communicate with each other to handle payment

What is NFC?

NFC allows a mobile device to exchange data with another enabled device. Specific to mobile payments, customers will typically use their smartphone to communicate with the NFC-compatible terminals in order to make a payment. Large retailers already have NFC-compatible equipment in place, but this technology has yet to be widely adopted.

MAKE SURE YOU
ARE ONE OF THE
FIRST
SMALL BUSINESS
OWNERS
TO START ACCEPTING
CONTACTLESS
PAYMENTS

Love the rate but want to use your own equipment?.....No Problem!

We can reprogram your current equipment to process with us
